*Examiner's Statement Of Reason For Allowance*

2. The following is an examiner's statement of reasons for allowance

Claims 1-21 are allowed.

Regarding claim 1, the prior art of record does not teach all the combined components and or elements for a printing apparatus including output means for dividing, on the basis of an instruction to divide one page of data into a plurality of pieces and outputting these pieces on respective pages, a print image corresponding to the sheet to be printed such that each piece of the print image corresponding to a piece of the sheet partly overlaps another piece of the print image corresponding to an adjacent piece of the sheet, and then outputting these pieces of the print image to said printing means.

Regarding claim 8, the prior art of record does not teach all the combined steps for a printing method utilizing a printing section to which a print image is inputted to carry out no-margin printing according to the inputted print image, the print image having an area larger than the area of a sheet to be printed and having an image beyond the boundary of the sheet, including the steps of dividing, on the basis of an instruction to divide one page of data into a plurality of pieces and to output these pieces on respective pages, a print image corresponding to the sheet to be printed such that each piece of the print image corresponding to a piece of the sheet partly overlaps another piece of the print image corresponding to an adjacent piece of the sheet; and outputting these pieces of the print image to the printing section.

Regarding claim 15, the prior art of record does not teach all the combined steps for a computer program product for executing a printing method utilizing a printing section to which a print image is inputted to carry out no-margin printing according to the inputted print image, the print image having an area larger than the area of a sheet to be printed and having an image beyond the boundary of the sheet, including the steps of dividing, on the basis of an instruction to divide one page of data into a plurality of pieces and to output these pieces on respective pages, a print image corresponding to the sheet to be printed such that each piece of the print image corresponding to a piece of the sheet partly overlaps another piece of the print image corresponding to an adjacent piece of the sheet; and outputting these pieces of the print image to the printing section.

### *Conclusion*

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art of record does not teach all the combined steps and components / elements as discussed above in the "examiner's statement of reasons for allowance".

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
